General Report Comments:

Document No: 1146380 Validation Date: 10 March 2025

Identification

Mineral Type: Natural Corundum
Variety: Ruby

Transparency: Transparent
Color Description: Red

Carat Weight: 1.21 cts
Measurements: 6.35 x 6.24 x 3.56 mm

Shape: Square Cushion
Cutting Style: Mixed Cut

Comments:

American Gemological Laboratories™

America's first and most highly respected origin lab.

Founded in 1977,

AGL is an internationally recognized gemstone testing facility, specializing in comprehensive colored stone analyses.

AGL has the distinction of being the first laboratory in the United States to issue Country-of-Origin reports. Our company and its principals have a long tradition of research into the detection of and reporting on gem identification-and-classification, gemstone treatments and provenance determinations.

Our staff is composed of experts in the field of gemstone testing and reporting. Our findings reflect the latest knowledge and analytical techniques to ensure the highest standards are applied on every stone we test.

AGL's testing and reporting methodology provide you with unsurpassed quality and reliability. We are committed to providing the highest level of service and reporting that our clients and the industry have come to expect from the AGL.

Origin

Provenance: Burma (Myanmar)

Comments: Based on available gemological information, it is the opinion of the Laboratory that the origin of this material would be classified as Burma (Myanmar - Mong Hsu).

Enhancement

Standard: Heat
Stability Index: Color Stability: Excellent

Additional: Clarity
Degree: Minor to Moderate
Type: Heating Residues
Stability Index: Excellent to Very Good

Comments: Rubies are commonly heated to modify their color and appearance. Heating residues are deposited along healed fissures during the heating process.
