General Report Comments:

Document No: 1154751      Validation Date: 16 March 2026

Identification

Mineral Type: Natural Spinel      Transparency: Transparent  
 Variety:      Color Description: Pinkish Orange - Red

Carat Weight: 5.11 cts      Shape: Oval  
 Measurements: 11.07 x 8.81 x 7.20 mm      Cutting Style: Mixed Cut

Comments:

Identification

**American Gemological Laboratories™**  
 America's first and most highly respected origin lab.

Founded in 1977,  
 AGL is an internationally recognized gemstone testing facility, specializing in comprehensive colored stone analyses.

AGL has the distinction of being the first laboratory in the United States to issue Country-of-Origin reports. Our company and its principals have a long tradition of research into the detection of and reporting on gem identification-and-classification, gemstone treatments and provenance determinations.

Our staff is composed of experts in the field of gemstone testing and reporting. Our findings reflect the latest knowledge and analytical techniques to ensure the highest standards are applied on every stone we test.

AGL's testing and reporting methodology provide you with unsurpassed quality and reliability. We are committed to providing the highest level of service and reporting that our clients and the industry have come to expect from the AGL.

Origin

Provenance: Tanzania

Comments: Based on available gemological information, it is the opinion of the Laboratory that the origin of this material would be classified as Tanzania.

Origin

Enhancement

Standard: No gemological evidence of heat      Additional: Clarity  
 Degree: Insignificant to Minor  
 Type: Oil Type  
 Stability Index: Very Good to Good

Comments: Oil is a traditional type of filling material used to reduce the visibility of fissures.
